Quarterly and annual figures are averages of monthly figures. Some zero values may actually be above zero, but are too low to report.

Notes: Revisions to the Retail Trade Survey incorporate estimates based on a new restratified sample. In addition, data for retail trade are presented based directly on the North American Industrial Classification System (NAICS) basis, rather than the trade group variant of NAICS; therefore detailed industry data is only available back to 2004.

\*Other Retail Categories is equal to total sales minus the retail categories listed. Other Retail Categories includes: Motor Vehicle and Parts Dealers; Electronics and Appliance Stores; Building Material and Garden Equipment and Supplies Dealers; Health and Personal Care Stores; Gasoline Stations; Sporting Goods, Hobby, Book and Music Stores; General Merchandise Stores; and Miscellaneous Store Retailers. Therefore, current data cannot be compared with data in previous Yukon Bureau of Statistics Annual Reports.
